FISCAL YEAR CALLS FOR SERVICE

FIRST ARRIVING TRAVEL TIME AVERAGE

Response times are calculated using emergent calls inside Town Limits.

*FD Response Time - Response time that is Dispatch to Arrival. This includes FD turnout time and travel time to the scene.

TOTAL RESPONSE TIME AVERAGE

*Total Response Time - Response time that is Alarm to Arrival. This included when the call was answered by dispatch to arrival on scene.

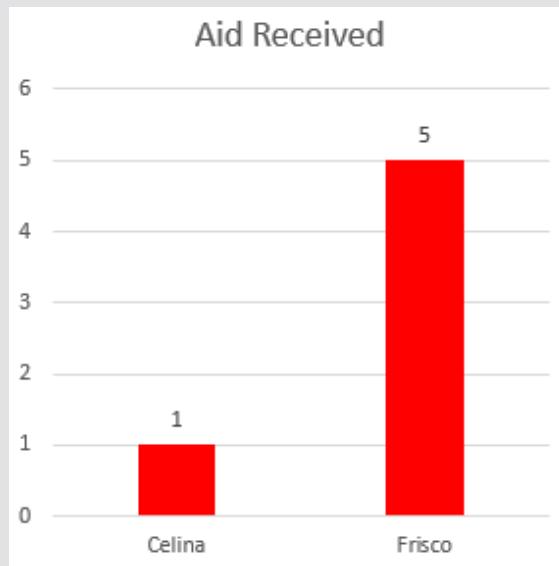

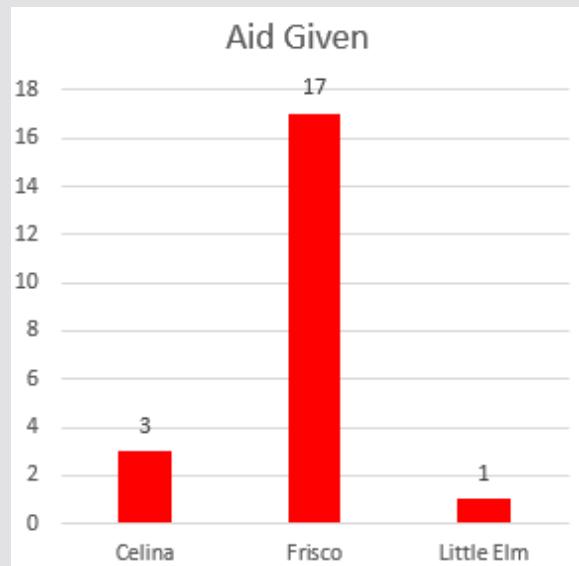

TOTAL RESPONSE TIME 90TH PERCENTILE

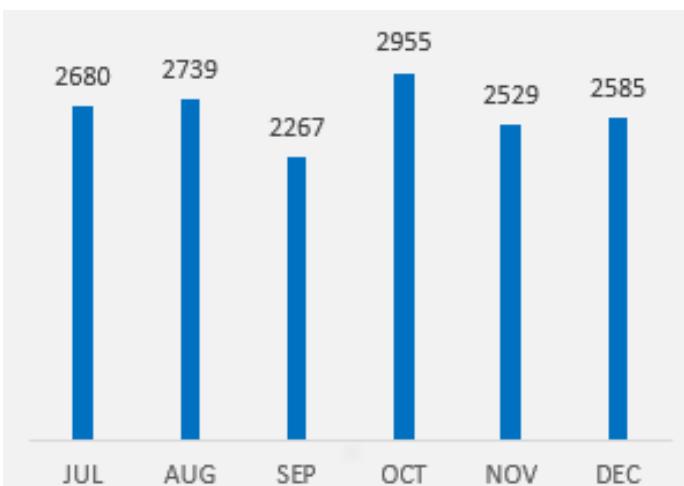

***90th Percentile** - Performance measurement is based on the 90th percentile which means that we find the time that occurs at 90% for the range of values being studied. If a 90th percentile baseline is reported as 6:42 (6 minutes, 42 seconds), that means that 90% of the response times were at or better than 6:42. One should avoid misinterpreting 90th percentile performance as meaning this is the performance that occurs 90% of the time.
