

STEPS IN THE ENVIRONMENTAL PROCESS

- Environmental Constraints Mapping
- Environmental Scoping Process
- Technical Memorandum
 - Baseline Field-Verified Documentation
 - § Hazardous Materials Initial Site Assessment
 - § Vegetation Communities and Habitats
 - § Aquatic Resources
 - § Historic and Pre-historic Resources
- National Environmental Policy Act (NEPA) Environmental Document Classification
 - Environmental Assessment which will summarize all Technical Memorandum and Discuss Potential Environmental Consequences from the Project
- Determination of a Finding of no Significant Impact (FONSI)
 - Would include mitigation for environmental effects in certain resource categories
